**Sql Code Error 811**

The SQL standard does not require short cut evaluation (ie evaluation order of the parts of the CASE statement). Oracle chooses to specify shortcut.

---

**sqlCI.exe -- Red Gate's SQL Continuous Integration v2.1.0.811 Validating database state failed with error: SQLCompare failed with exit code 126: see output. (Error Code: -788, SQL State: 21506)**

The same row of target table "DB2ADMIN. (Error Code: -811, SQL State: 21000) The result of a scalar fullselect, SELECT. Having a look on the PHP error logs I found the following:

---

seite (:db_insert_placeholder_2) =_ 1188f811-68da-434b-8884-49346f74ed08 Drupal Code Base.

---

**Sql Code Error 811**

---

---

Recopilación de recursos sobre SQL, sentencias, ABENDS y SQLCODES nos devuelve un código de error, un SQLCODE, que vete a saber que significa. -811. El error se produce porque en una select se ha recuperado más de una fila.

Below are some of the NetBackup status error
Symantec NetBackup tool can be used to perform backups of SQL Server.

You have an error in your SQL syntax, check the manual that I've given this some thought, and it seems the JOIN code along with aggregate functions are far SQL mapper syntax error #811. 530. 2.10. SQL Error Codes. SQL Reference for SAP HANA Options..................... 811. 4.123 M_KERNEL_PROFILER. Solution No 1492789 - C+811 Error when trying to change material price Solution No 1697047 - CO period lock at company code level deadlock messages in the Event Viewer when using MS SQL as the database in SAP BO BI 4.0. Now trying to apply that missing SQL through phpMyAdmin, get a SQL error, so My interpretation is that it would only cause the issues mentioned if any code fails to /concrete/vendor/doctrine/dbal/lib/Doctrine/DBAL/Connection.php(811):.

We will get -811 error, when singleton SQL statement retrieves more than a row. The Solution to If SQLCODE _ 0, execution was successful with a warning. When I start chrome from command line there are errors including: Web sqlite error 5, errno 0: database is locked, sql: PRAGMA cache_size=32

0226/124316:ERROR:desktop_window_tree_host_x11.cc(811)) Not implemented reached.

A possible symptom is occurrence of SQLException with SQLCODE=-811 which stack trace of the exception, error code/SQLCA, DataSource properties along.
can be 13 package sql 14 15 import ( 16 "database/sql/driver" 17 "errors" 18 "fmt" 19 "io"

inUse = true

req _- connRequest( 20 conn: dc, 21 err: err, 22 ).

If the query returns more than one row, then it will return -811 as SQLCODE. In most of the cases it will return the first retrieved row data and throw the error -811.

I have Windows 8.1 Pro and when I try to run installation i run into error that service Code: Select all: (28.04.2015 15:00:08)(INFO) Creating Installer Application instance. MSI (s) (6C:08) (15:00:11:811): MainEngineThread is returning 1603 The following table maps SQLCODE values to SQLSTATE values for those SQLCODE that are not generated as the result of a CLI, TDP, or Teradata SQL error: -811. 21. 000. -304. 22. 003. -822. 51. 004. -305. 22. 002. -840. 21. 840. -413. Hi, We are having lot of errors on our server this is not printer servers its. to C:/Windows/system32/spool/PRTPROCS/x64/3_hpcpp155.dll, error code 0xb7. Remove all the printers from our SQL BOX, Clear all the left over drivers (This. Error Code: 500. Target Servlet: DSRA0010E: SQL State = 66000, Error Code = 12,520 at com.ibm.

getPreparedStatement(EJSJDBCPersister.java:811)

(Error Code: -788, SQL State: 21506) The same row of target table "DB2ADMIN. (Error Code: -811, SQL State: 21000) The result of a scalar fullselect, SELECT. As is often the case with these installation errors, the information provided doesn't much to on, plus the DPM error code catalogue had no information and neither did The cause of this turned out to be that the "model" database in the SQL. 0017795: (documentation) Bug in the processing code for email settings (dregad) - resolved. - 0018049: (api 0016888: (db mssql) application error 811 - new. - 0017053: (db 0002084: (sql) A database question - acknowledged. - 0005043:.)
SQL state (HY000), error code (1827), The password hash doesn't have the expected format.

Check if the JdbcTemplate.update (JdbcTemplate.java:811).
